Recommended environment

The following operation systems and browsers are recommended to optimally view this website.
If you use any other operation system or browser, there may be cases where some functions do not work properly.
The page may not be displayed properly depending on your PC environment.

- **Device specifications**
  OS   : Windows10, macOS v10.12
  CPU   : Model with 1-GHz operating frequency or faster
  Memory   : 2 GB or more
  Browser   : Microsoft Edge,
                    Firefox, Google Chrome, Safari, UC Browser, QQ Browser

- **Network line**
  Line type   : Broadband environment (fiber optic lines are recommended)
  Line bandwidth : 20 Mbps or greater for both uplink and downlink (*1)

- **Others**
  QR code reader : When an electronic application is made with a QR code (*2)
  Scanner   : Optical resolution: 200 dpi Color settings: black and white (*3)

*1:Even in the case of an environment where speeds of 20 Mbps or more are available, actual communication speeds may be slow depending on the regions.
*2:There is no recommendation with regard to models.
*3:Passports must be scanned in color.
